the room for a short time to a close place, they must lock the door. In particular, students should be careful while moving into and out of the dormitory residence since many theft incidents have

happened when moving.

Bus numbers 808, 814, 818, 508, and 708 go into Ha-yang. Occasionally 808 and 818 go the opposite direction towards Geum-ho. To make sure that the bus is going to Ha-yang, simply ask the driver, "Ha-yang ga yo (하양 가요)?"

In addition to the student department store on campus, there are numerous convenience stores and small markets surrounding the University. Ha-yang has three larger supermarkets. The closest is "K-mart" just across the bridge as you go towards Ha-yang. "Nice Mart" is slightly larger and newer than "K-mart." It is a large yellow building directly across the street from Ha-yang train station. "Dream Mart" is at the other end of Ha-yang from "Nice Mart" across the bridge as you head east. There is also a farmer's market that is great for picking up fresh fruits and vegetables as well as many other locally produces good. The market is held on each day ending in a 4 or a 9. Chapter 6 ABOUT DAEGU CITY

Geography

Daegu is located in the southeastern part of the Korean peninsula. Mountains surround the city forming a natural basin. Daegu is about 300km away from Seoul and about 120km away from Busan. The Seoul-Busan Highway, the Seoul-Busan Railroad, and several other highways pass through the city, making it a transportation hub connecting the whole nation. In addition, cities such as Gyeongju, Pohang, and Andong are located near Daegu and have a close relationship with the city.

Those who come to Daegu for the first time will quickly notice that it is a green city. The city government has gone to great lengths to improve Daegu's natural environment by planting more trees, building new parks and green spaces, and removing high standing walls, in order to create an open and attractive atmosphere within the city.

Climate

South Korea has four distinct seasons. Spring starts in late March and you can expect occasional light showers from March to May. Early June marks the beginning of summer and the monsoon season. Summer is relatively hot and humid, with temperatures in July and August rising over

30°C (87°F). The coming of fall in late September brings continental winds and mild, dry weather, making it the most pleasant time of the year. From December to February, it is cold and dry with occasional snow. The average rainfall in Daegu is about 900 mm per year, slightly less than that of other areas in the nation. Most rainfall occurs in the summer months.
